Corporate finance for the pre-industrial world began to emerge in the Italian city-states and the low countries of Europe from the 15th century. Public markets for investment securities developed in the Dutch Republic during the 17th century. By the early 1800s, London acted as a center of corporate finance for companies around the world, which innovated new forms of lending and investment.

Financial economics is the branch of economics characterized by a "concentration on monetary activities", in which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy.It has two main areas of focus: asset pricing and ...
